

GS1 Supplementary Documentation Overview & Acknowledgement Form Small Block Membership License

Reference is made to the application submitted by your company for subscription to the GS1 Standards & Keys for the Small Block Membership License.

We, the undersigned, understand and accept the information shared below by GS1 Malaysia. I wish to apply for a Small Block Membership License which provides 10 GTINs (barcode numbers).

By making this decision I hereby accept all outcomes arising from this decision.

- The Small Block Membership License was created for **cottage enterprises, home-based or micro-level companies** which **have less than 10 trade items to be barcoded**, promotional, festive/seasonal-run, limited-run products only, and this number **is not expected to grow** in the foreseeable future. In the event your company requires more GTINs, you must apply for a **GS1 Additional Membership License**, subjected to the prevailing rates, terms and conditions:

GS1 Additional Membership License: RM816.00/license/year (1,000 GTINs)

- An Additional Membership License is considered a **full license that is independent from your existing main membership license (can be terminated or transferred individually)** and comes with their **own recurring fees**, which are **added to your License Renewal Fee total**.
- When allocating GTINs (Global Trade Item Numbers), each **product variant** (e.g. different type of packaging, flavour, and colour) **will require a different barcode number**.
- Company Prefixes for a Small Block Membership License are **12-digits long** instead of the standard **6-digits long** on a Standard Membership License. This will affect the generation of other GS1 Identification such as the **Serial Shipping Container Code (SSCC)**.
- 2 different membership prefixes **are not allowed to be merged under 1 license**.
- A Small Block Membership License **is not allowed to be upgraded to a higher number block license**.
- Termination of your Small Block Membership License is subjected to the **terms** highlighted under the section labelled as 'Termination of Membership' in **GS1 Malaysia's Terms and Conditions**. Terminated GTINs use is strictly prohibited, they will be **reassigned** over time. Product data already listed in the Member Product Databank will be removed from circulation.
