

Application for GS1 Standards & Keys – Small Block

Reference is made to the application submitted by your company for subscription to the GS1 Standards & Keys under the Small Block Membership.

We would like to highlight that Small Block Membership was created for **cottage enterprises, home-based or micro-level companies** which have less than 10 trade items to be barcoded, **promotional, festive/seasonal-run, limited-run products only**. Subscribers under the Small Block Membership are allocated with only up to 10 GTINs (Global Trade Item Numbers). In the event your company requires more GTINs, you must apply for a **GS1 Additional Membership**, subjected to the prevailing terms and conditions.

Additional Memberships are considered full-fledged GS1 Memberships and therefore are **independent** of your main GS1 membership. The following applies to all Additional Memberships:

- i) Additional Memberships can be **transferred individually**
- ii) Additional Memberships can be **terminated individually**
- iii) Additional Membership Fees are **recurring**
- iv) Additional Membership Fees are **added to your Annual Renewal Fee total**

Please note that every different type of packaging, flavour and colour of product would require a different barcode number.

Termination of your Small Block Membership is subjected to the terms highlighted under the section labelled as 'Termination of Membership' in GS1 Malaysia's **Terms and Conditions**. It is incumbent upon your company to strictly refrain from using barcode numbers assigned under the to-be-terminated Membership. GS1 Malaysia Berhad reserves the right to reassign the barcode numbers previously assigned to your company to another company upon successful termination. Product data already listed in the Member Product Databank will be removed from circulation.

We therefore advise your company to consider your Small Block Membership application and inform us of your decision by completing and providing GS1 Malaysia this document for further processing.
