

## Application for GS1 Standards & Keys – Small Block

Reference is made to the application submitted by your company for subscription to the GS1 Standards & Keys under the Small Block Membership.

The following **must be seriously considered & acknowledged** before you complete your application:

- a. The Small Block Membership was created for **cottage enterprises, home-based or micro-level companies** which **have less than 10 trade items to be barcoded**, promotional, festive/seasonal-run, limited-run products only, and this number **is not expected to grow** for the foreseeable future. Small Block Membership are **allocated with only 10 GTINs**. In the event your company requires more GTINs, you must apply for a **GS1 Additional Membership License**, subjected to the prevailing rates, terms and conditions:
  - a. Additional Standard Membership: **RM816.00/license/year (1,000 GTINs)**
  - b. Additional Small Block Membership: **RM390.00/license/year (10 GTINs)**
- b. An Additional Membership License is considered a **full license that is independent from your existing main membership license (can be terminated or transferred individually)** and comes with their **own recurring fees**, which are **added to your License Renewal Fee total**.
- c. When allocating GTINs (Global Trade Item Numbers), every **product variant** (e.g. different type of packaging, flavour and colour) **will require a different barcode number**.
- d. Company Prefixes for a Small Block Membership are **12-digits long** instead of the standard **6-digits long** on a Standard Membership. This will affect the generation of other GS1 Identification such as the **Serial Shipping Container Code (SSCC)**.
- e. 2 different membership prefixes **are not allowed to be merged under 1 license**.
- f. A Small Block Membership License **is not allowed to be upgraded to a higher number block license**.
- g. Termination of your Small Block Membership is subjected to the **terms** highlighted under the section labelled as 'Termination of Membership' in **GS1 Malaysia's Terms and Conditions**. Terminated GTINs use is strictly prohibited, they will be **reassigned** over time. Product data already listed in the Member Product Databank will be removed from circulation.

I have read and have understood the information. I want to apply for a Small Block Membership which provides 10 GTINs (barcode numbers)
